ENFRASYS

About Enfrasys

Enfrasys is a leading Malaysian technology partner specializing in digital transformation solutions powered by AI, cloud, modern workplace productivity, and security. With over two decades of expertise, we seamlessly integrate global innovation with deep local insights, empowering businesses across diverse industries.

5,000+

Projects Successfully Completed

As a trusted partner, we deliver tailored, results-driven solutions that help organizations navigate complex challenges, achieve operational excellence, and drive sustainable and secured growth in an evolving digital economy.

93%

Turnover Growth in 2024

Unlike cloud-native firms, we bring a holistic understanding of hybrid and multi-cloud complexities, designing solutions that maximize efficiency, security, and long-term value.

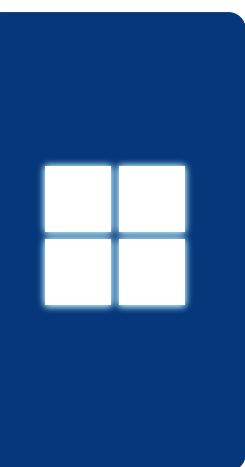

Why Enfrasys

Local Expertise with Global Innovation

As a fully Malaysian-owned company, Enfrasys possesses in-depth knowledge of local regulations, business landscapes, and compliance requirements, making us a strategic Bumiputera-status entity within the Microsoft ecosystem.

Microsoft's Trusted Partner

We hold exclusive advanced specializations in AI and cloud technologies, leveraging Microsoft Copilot, Azure, and security solutions to accelerate digital transformation and operational excellence for businesses.

Sector-Focused Leadership

As a proven Managed Services Provider (MSP), Enfrasys drives digital transformation across government, financial services, healthcare, education, retail, industrial, energy, and telecommunications, advancing Malaysia's digital agenda.

Comprehensive End-to-End Solutions

We deliver end-to-end digital solutions, from cloud migration and AI-driven insights to modern workplace transformation and advanced cybersecurity, all aligned with NACSA standards and industry best practices.

Strategic Solution Pillars

Modern Workplace

Empowering future-ready organizations with hybrid solutions and AI-driven tools to enhance collaboration, automation, and productivity.

Cloud Transformation

Accelerating cloud adoption, migration, and optimization with tailored Microsoft solutions that deliver scalability, security, and operational efficiency.

Security

Providing NACSA-compliant, proactive security solutions to safeguard businesses against evolving cyber threats and ensure regulatory compliance.

Data & AI

Harnessing the power of AI, automation, and big data analytics to unlock smarter decision-making and predictive intelligence for enterprise growth.

To empower businesses with innovative, scalable and secure solutions that drive transformation, foster growth and deliver measurable impact, all while contributing to Malaysia's national digital agenda.

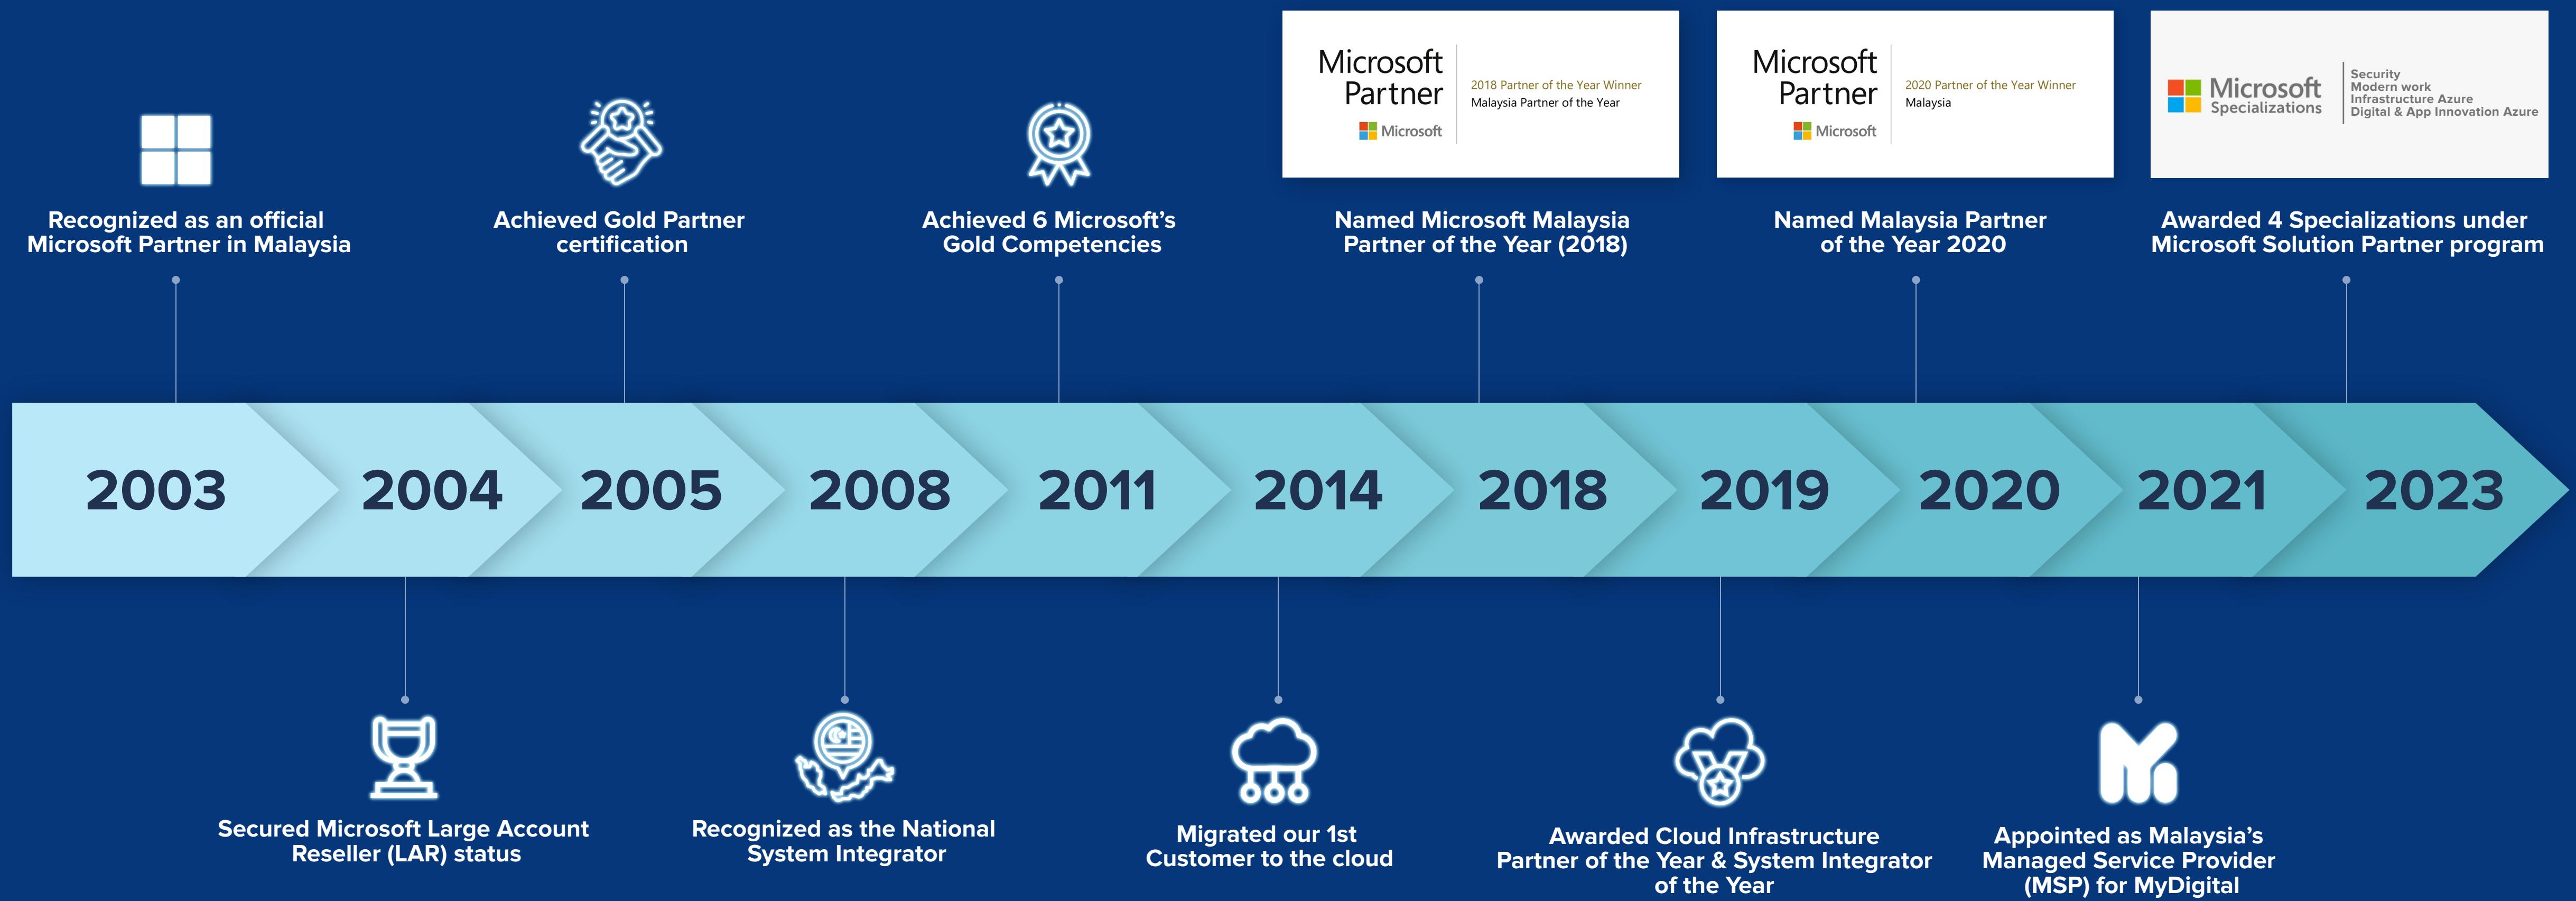

Vision

Shaping the future of business with technology.

Mission

Our Milestones

Enfrasys embodies a legacy of excellence, innovation, and transformative impact, reflected in our journey of industry accolades, strategic milestones, and unwavering commitment to empowering businesses through cutting-edge technology solutions

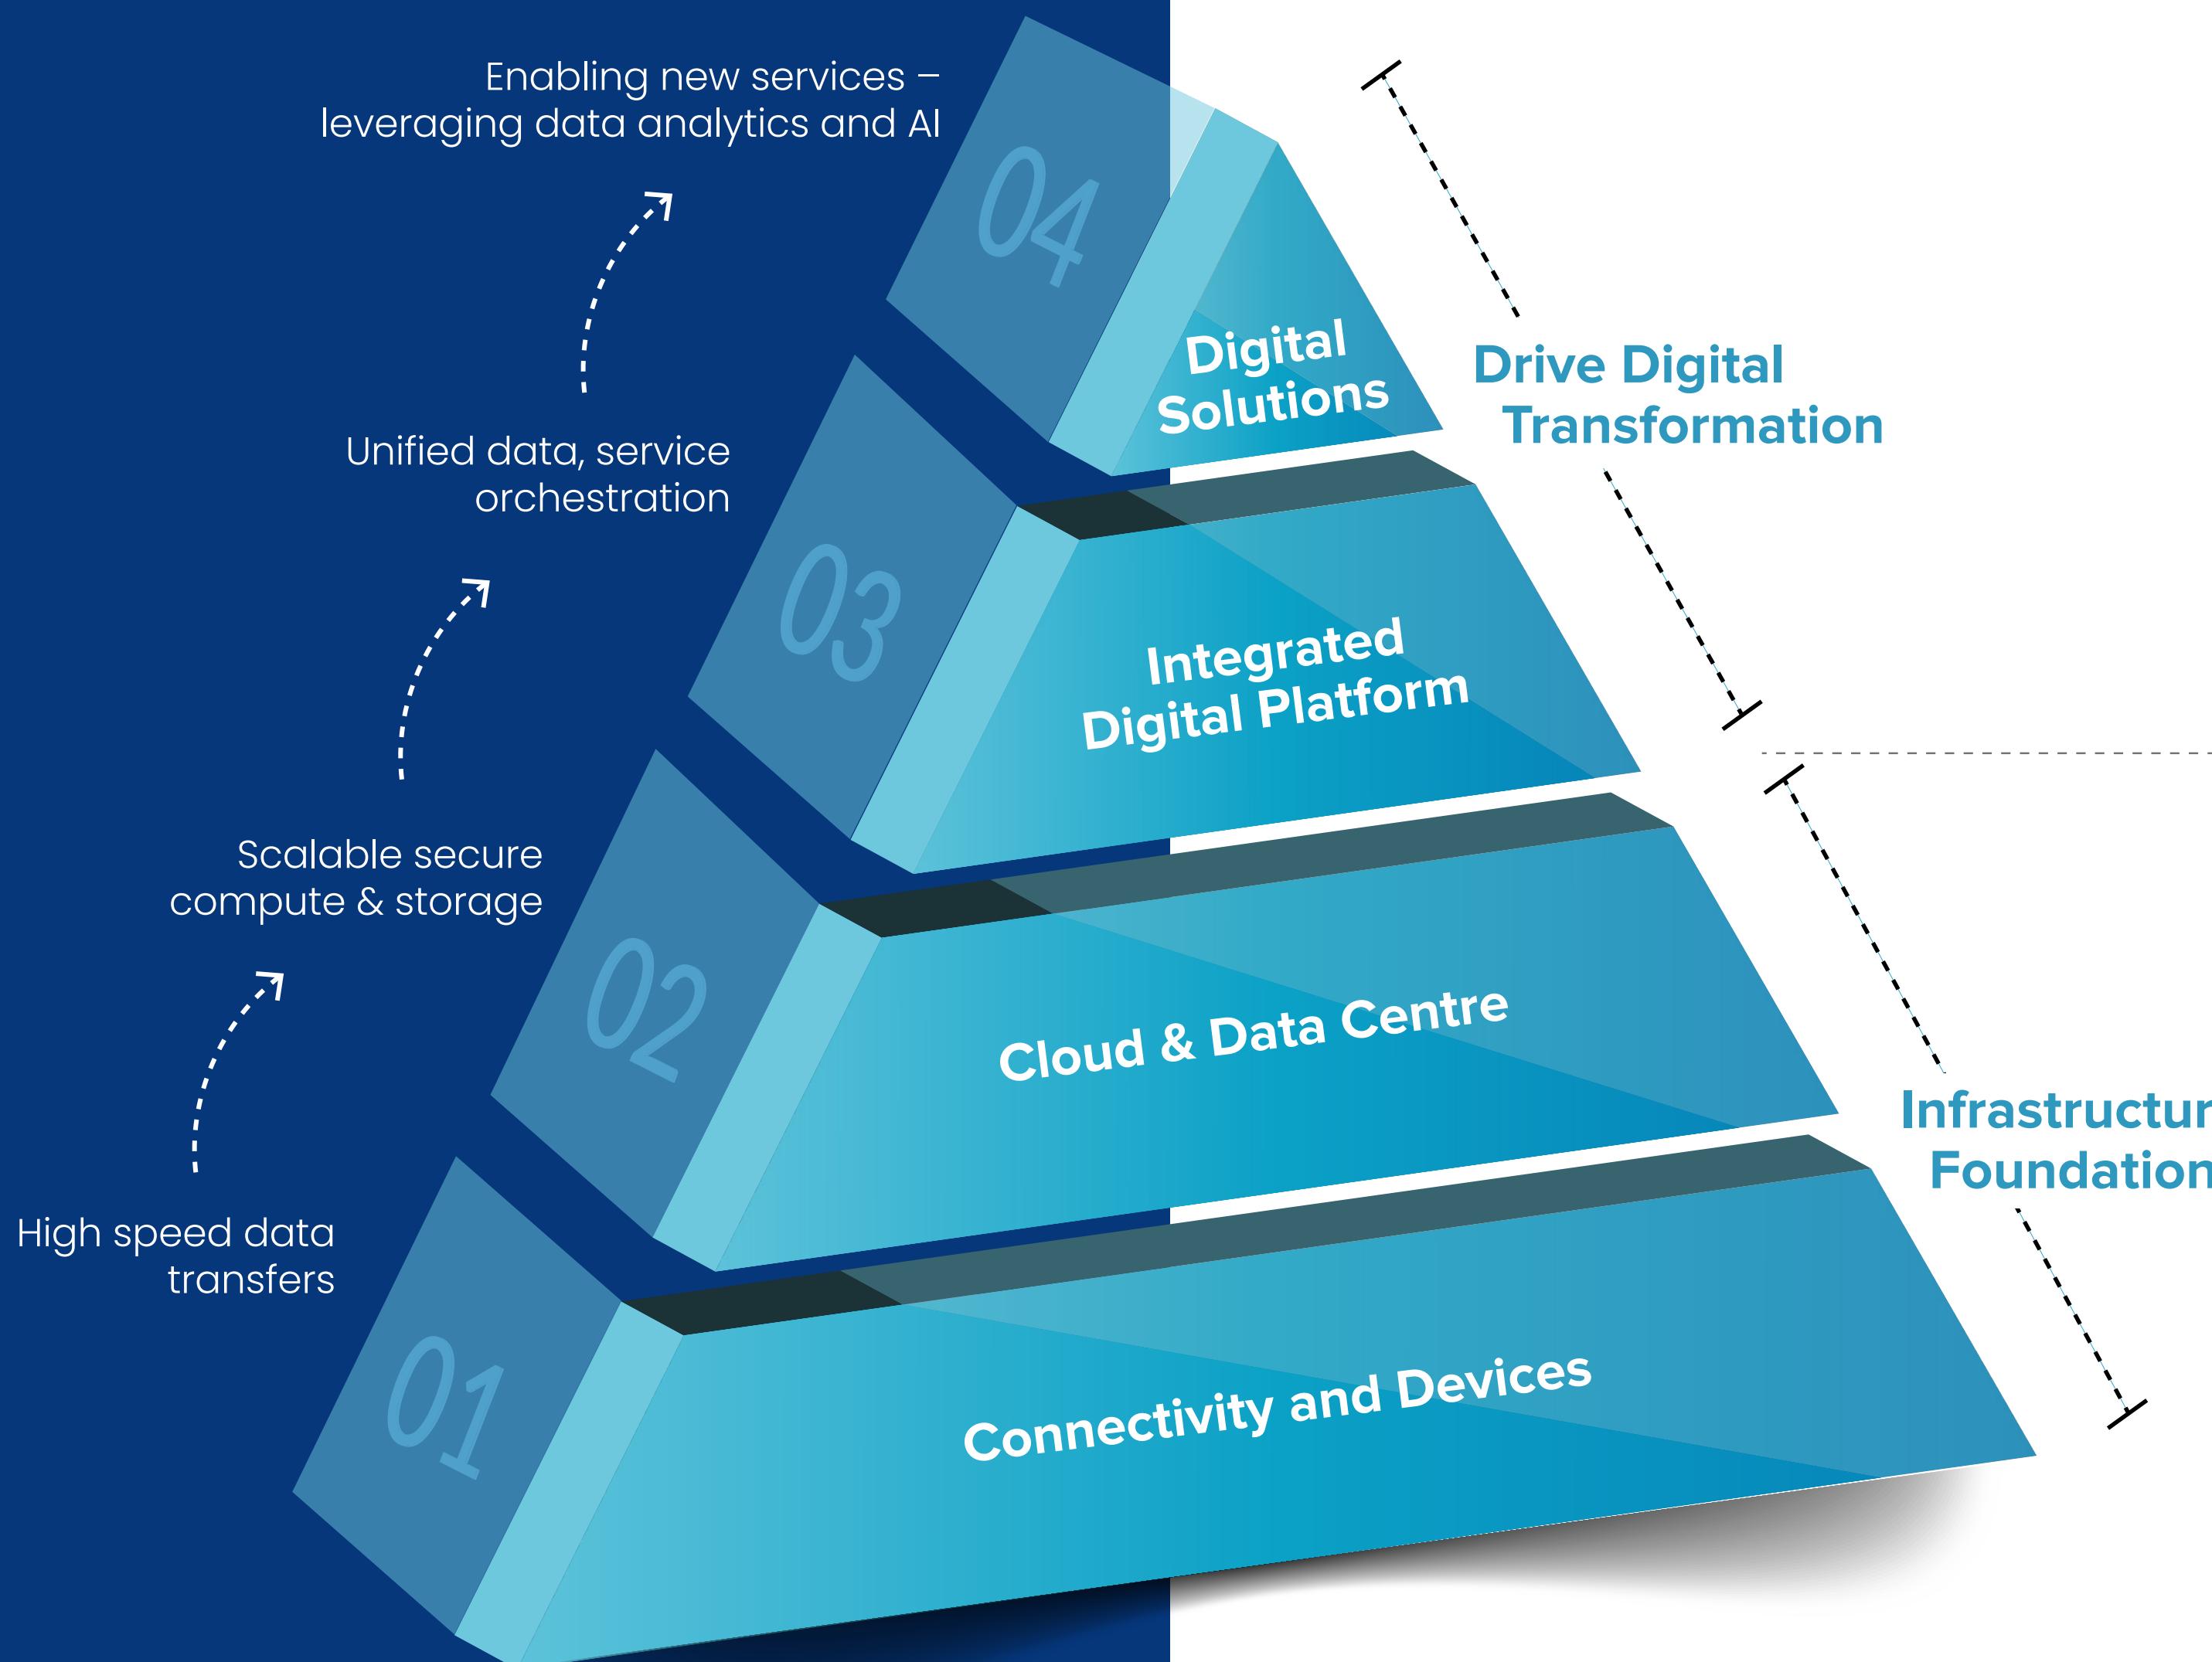

Organizational Structure

AI-Powered Digital Transformation Framework

Empowering businesses with a structured approach to seamless digital transformation.

Digital Solutions

Microsoft 365 Power BI Microsoft Flow PowerApps

- * AI-driven tools enhance workforce productivity and decision-making.
- * Predictive analytics provide actionable insights.
- * Automation streamlines workflows and reduces manual effort.

Integrated Digital Platform

- * Enables seamless data integration across systems.
- * Supports advanced automation and AI-driven processes.
- * Unifies operations for improved efficiency and scalability.

eNEX Cloud Right Cloud for Your Needs Microsoft Azure

- * Provides secure, scalable infrastructure.
- * Powered by Microsoft Azure for optimal performance.
- * Ensures reliable data storage, processing, and management.

Connectivity

- * High-speed networks like 5G and fiber enable seamless data flow.
- * Supports real-time collaboration and communication.
- * Strengthens the foundation for digital transformation.

Microsoft Licensing Program Overview

Available Licensing Programs

Enterprise Agreement Perpetual (EAP)

Long-term, perpetual licensing for larger organizations.

Enterprise Agreement Subscription (EAS)

Subscription-based licensing for scalability and flexibility.

Microsoft Products and Services Agreement (MPSA)

Simplified agreements for businesses requiring multiple services.

Microsoft Cloud Solution Provider (CSP)

A program for accessing cloud-based solutions with continuous support.

Microsoft Enrolment for Education Solutions (EES)

Tailored agreements for educational institutions.

Subscription: Flexible, pay-as-you-go model.

Perpetual Licensing: One-time purchase with long-term usage rights.

Target Audience

Government Sectors, Government-Linked Companies (GLCs), Enterprise Corporates (EC)

Small and Medium Corporates (SMCs), Small and Medium Businesses (SMBs), and Educational Institutions

Delivery Options

Cloud Solutions:

Infrastructure, platforms, and software as a service (IaaS, PaaS, SaaS).

On-Premises Solutions:

Locally hosted IT solutions for complete control.

Hybrid Solutions:

A combination of cloud and on-premises infrastructure.

Solutions & Services Portfolio

DATA & AI

IDP (Fabric)

Manage user identities and access across platforms efficiently.

One Lake

Manage user identities and access across platforms efficiently.

Copilot Studio

Manage user identities and access across platforms efficiently.

Container Vision

Leverage container technology to optimize AI services near your data.

MODERN WORKSPACE

M365

Collaborate seamlessly with Microsoft 365's integrated tools for productivity and communication.

Copilot

AI-powered productivity assistant for streamlined workflows.

Power Platform

Build and automate custom business applications effortlessly.

Security & Data Protection

Advanced tools for identity, endpoint, and information protection.

CLOUD TRANSFORMATION

Azure Cloud Solutions

Scalable cloud services tailored to your business needs.

Cloud Migration Expertise

Simplify the transition of data and applications to the cloud.

Business Continuity and Disaster Recovery

Ensure operational resilience during disruptions.

Application Modernization

Upgrade legacy applications with the latest technologies.

SECURITY

Microsoft Defender Suite

Comprehensive endpoint security tailored for your organization.

Microsoft Sentinel

Cloud-based solution for threat detection and response.

Microsoft Purview

Robust data governance for secure and compliant operations.

Microsoft Entra Suite

Zero Trust security framework for identity and access management.

Endpoint Management

Simplify IT administration with cloud-based security for devices.

Awards & Recognitions

Cloud Framework Agreement Partner

Strategic collaboration with MAMPU and Microsoft to accelerate government cloud adoption by:

- Streamline cloud adoption processes and reduce infrastructure costs.
- Leverage cutting-edge cloud-based tools and capabilities, including data analytics, artificial intelligence (AI), machine learning (ML), and the Internet of Things (IoT), to elevate citizen experiences.

Microsoft Partner of the Year (2018 & 2020).

Recognized for excellence in driving innovation and delivering impactful solutions in Malaysia.

2020 Partner of the Year Winner
Malaysia

2018 Partner of the Year Winner
Malaysia Partner of the Year

Malaysia's Managed Service Provider (MSP) for MyDigital

Authorized to provide cloud services under the Government Hybrid Cloud (GHC), including:

- IaaS: Infrastructure as a Service
- PaaS: Platform as a Service
